PROFESSIONAL PROFILE

Results-oriented software developer with experience in building secure full-stack applications.

An expert in customer service with a proven track record of customer satisfaction

An excellent team player with a positive attitude and a continued desire to learn.

AREAS OF EXPERTISE

- HTML/CSS
- Bootstrap
- JavaScript
- Vue.js
- Node.js
- C#
- DotNet

EDUCATION

CodeWorks

Software Development, 2020

Boise State University

Credits toward CS, 2019

Western Washington University

Bachelor of Arts, 2016

- Focus on Economics and Spanish

DEVELOPMENT PROJECTS

Keepr

Utilizing Vue.js Front-End and a DotNet Back-End

- Keepr is a full-stack application that allows users to post content to a public shared space, as well as save content they like to their own personally created collections.

PointOut

Vue.js and Mongoose/MongoDB

- PointOut is a full-stack application built using the Leaflet map api. PointOut allows users to create points at a location of their choice and share those points to a group that they can share with their friends and family

Kanban Board

Vue.js and Mongoose/MongoDB

- An implementation of a traditional Kanban board where users can create lists of tasks and move tasks to distinct stages as they are completed throughout a project

EMPLOYMENT HISTORY
